

Virtual Personal Finance Manager

This project is a console-based C++ application designed to help users manage their personal finances. It allows users to track income, expenses, and savings, view summaries, and generate financial reports.

 by Amna Alwani

Features & Implementation

User Personalization

Users can input their name for a personalized experience.

Add Income & Expenses

Records income and expenses, updating totals.

View Summary

Displays total income, expenses, and calculated savings.

Save Report

Generates a financial report saved to a file (FinanceReport.txt).

FinanceManager Class

Attributes: income, expenses, savings, and username.

Methods

setUsername(), addIncome(), addExpense(), viewSummary(), saveToFile().

THANK YOU !
